

**Dental Instruments**  
**Zahnärztliche Instrumente**  
**Instrumentos dentales**  
**Instruments dentaires**

We are manufacturer and exporter of surgical instruments, dental instruments, eyelash extension tweezers and beauty instruments.

The quality management system has been properly implemented and is successfully working at all production stages. We carry out all the necessary tests, inspections and process control activities to ensure that there is no problem with the instruments performance.

The technical specifications are provided for more understanding of the products and to improve the confidence of the customer.

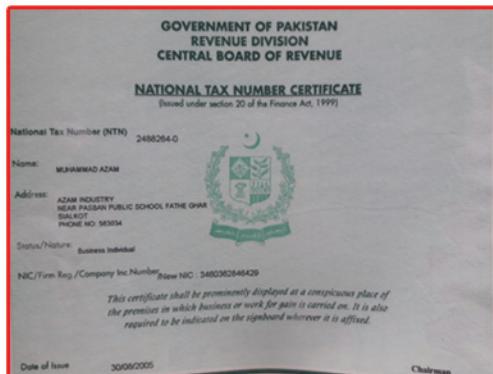

Samples and prices can be obtained on demand. Deliveries of the orders are ensured within time. Although this website doesn't cover all the range of surgical instruments, dental instruments, manicure and pedicure, yet it assures you that we can make every type of instruments. So we will welcome your all inquiries, also for your required instruments which have not been listed in this website.

If you have any queries, please don't hesitate to contact us.

#### Combination Trocar-Trephine Instruments

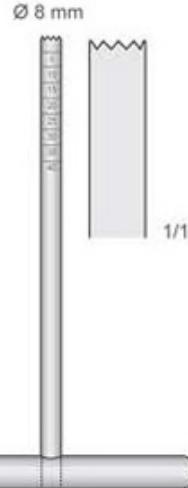

Bestehend aus einem Trokar, einer gezahnten Trepbine und einem Kolben zur Entnahme von Knochentransplantaten aus Tibia und Beckenkamm mittels eines geschlossenen Verfahrens

Consisting of trocar, a toothed trephine and a plunger for taking tibial and iliac bone grafts through a closed technique

Composto di un trequarti, una camicia dentata ed un pistone per il prelievo degli innesti ossei dalla tibia e dalla cresta iliaca tramite una tecnica chirurgica intracutanea

Compuesto por un trócar, un trépano dentado y un émbolo para obtener injertos óseos tibiales e ilíacos mediante una técnica cerrada

Composé d'un trocart, d'une tréphine dentée et d'un piston pour le prélèvement de greffes osseuses de la tibia ou de la crête iliaque par une technique fermée

### Lubricating and sharpening oil SHARPOIL

It is a non-coloured oil, which is an indispensable complement for lubricating and manual sharpening of surgical instruments. It should be applied to ensure perfect function and fluid movement of all surgical instruments (on all hinges or all other parts which are subject to movement or friction).

Must always be used during all sharpening operations. It is used to activate the abrasive properties of all stones (Arkansas, India, etc.), and to reduce the possibility of overheating the instruments during sharpening.

### Bacteriostatic Anti-Corrosion Milk CLEANLACT

Extends your surgical instrument's lifetime. A periodic use of Cleanlact prevents corrosion; it has a bacteriostatic and lubricating action on all instruments; it guarantees perfect maintenance by eliminating eventual stains, halos and browning due to sterilization, disinfection and washing with tap water. Must use periodically, diluted or concentrated (see special instructions on packaging).
